 [Kishore B](#) | [Tech Portfolio](#)

Coimbatore , Tamil Nadu - 641039, India

OBJECTIVE

Aspiring Software Developer with experience in programming and software design. Proficient in C, C++, Java, and Python, with a solid foundation in object-oriented programming. Currently a Second-Year Student seeking opportunities to create innovative software solutions.

EDUCATION

• Amrita Vishwa Vidyapeetam

B.Tech CSE-AI

◦ GPA: 8.14/10.00

2023 – 2027

Coimbatore, India

RELEVANT COURSEWORK

• Object-Oriented Programming , Data Structures, Algorithms, Database Systems

SKILLS

- **Programming Languages:** Java, Python, C, C++
- **Web Technologies:** HTML, CSS, JavaScript, Next.js, Express.js
- **Databases:** MySQL, MongoDB, Neo4j, PostgreSQL
- **AI Skills:** Machine Learning, Deep Learning, Neural Networks
- **Libraries:** Tensorflow , Pytorch , Numpy , Pandas , Scikit-Learn , Matplotlib , Keras

PROJECTS

• AudioAura

Tools: React.js, Express.js , MongoDB

- Developed a Podcast Generator delivering personalized news and weather updates via Gemini and other APIs with a React.js frontend and Express.js backend.
- Integrated MongoDB for efficient storage of user data.
- Designed scalable backend modules, adhering to software engineering principles.
- GitHub Repository: [Frontend](#) | [Backend](#)

• Fraud Detection in Financial Networks

Tools: Python, Logistic Regression

- Developed a machine learning model using Logistic Regression to detect fraudulent activities in financial networks.
- Achieved an accuracy of 96% in identifying fraudulent transactions.
- GitHub Repository: [Github](#)
